I fully support Uber in South Carolina. I can't understand why you would stand in the way of free enterprise. My experience is that the drivers and the vehicles are far superior to any taxi I have ever used in Charleston or Mt. Pleasant. And the price is less. Your actions are taking away my right to choose. Shame on you!

I will ask my legislator to respond to your actions in a sure and swift manner and if not, I will find someone else to represent me the next time there is an election!

Besides bypassing city/county bureaucracies, what is the objection to this fide-sharing system? Don't we taxpayers get to decide how we travel and who we pay for the convenience?

Danger on the roads and drinking and driving just went up because of working against uber.

Please think of safety and not politics. The experience and facts of safe rides is proof, not a fear of a problem. Put taxis under the microscope to be fair

Uber is a useful tool that we should have the right to use. Please do not cancel this wonderful service that we as consumers choose to have. Furthermore, every uber ride I have ever been in is so much safer and cleaner and more dependable than any cab ever in charleston.
